Das-4 usage

Das-4 usage

Steps:

```
$ ssh fs0.das4.cs.vu.nl
```

```
$ module load prun
```

```
// Reserve a node compatible with your assignment for 30min
```

```
$ preserve -np 1 -native -C [glitch|drammer] -t 1800
```

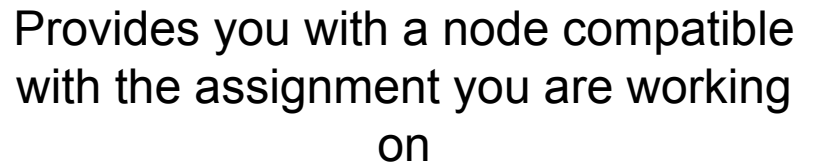

```
// Check when is your slot
```

```
$ preserve -llist
```

```
$ ssh nodeN
```

```
$ adb shell
```

```
...
```

Provides you with a node compatible
with the assignment you are working
on

Release node for other to use it

```
$scancel -u $UID
```
